**Effects of Overexposure:****Acute:**

- Eyes:** May cause severe eye irritation and chemical burns.
- Skin:** Slightly irritating to the skin. Harmful amounts may be absorbed through the skin with extensive and prolonged contact.
- Inhalation:** Exposure to vapors or mist may result in irritation of the respiratory tract, headache, drowsiness and dizziness. High concentrations of ethylene glycol ethers may be lethal.
- Ingestion:** May cause irritation of the mouth, throat, and the respiratory tract, abdominal discomfort, dizziness, lumbar pain, CNS depression, kidney and liver damage.

**Chronic:** Prolonged or repeated skin contact may result in toxic amounts being absorbed through the skin.

**Additional Medical and Toxicological Information:**

Persons with preexisting respiratory, liver, kidney, eye or skin diseases may be adversely affected by this product. Ethylene glycol and ethylene glycol ethers have produced dose-related teratogenic effects and maternal toxicity in laboratory animals. Exposure to vapors of ethylene glycol ethers have caused testicular atrophy in laboratory animals.

**EMERGENCY FIRST AID PROCEDURES**

- Eye Contact:** Flush thoroughly with large amounts of water for at least 15 minutes, including under the eyelids. Contact a physician immediately, preferably an Ophthalmologist. Speed and thoroughness in rinsing eyes are important to avoid permanent injury.
- Skin Contact:** Remove contaminated clothing. Wash affected areas with soap and water. If irritation occurs, get medical help. Discard contaminated shoes.
- Inhalation:** Remove to fresh air. Apply artificial respiration if not breathing. Get medical attention.
- Ingestion:** Do not induce vomiting. Get immediate medical attention.

**SPECIAL PROTECTION INFORMATION**

- Eye Protection:** Remove contact lenses and wear chemical safety goggles where contact with liquid or mist may occur.
- Skin Protection:** Wear impervious gloves when contact with skin may occur. Use face shields where splashing may occur. Wash with soap and water before eating, drinking or smoking. Launder contaminated clothing before reuse. Discard contaminated shoes.
- Inhalation:** Use approved respiratory protective equipment for cleaning large spills or entry into large tanks, vessels or other confined spaces or in situations where exposure may exceed occupational exposure levels. Avoid inhalation of vapors or mists generated by heating or violent agitation of this product.
- Ventilation:** Provide adequate ventilation 1) to keep mist or vapors below occupational exposure levels and 2) to prevent the formation of an oxygen deficient atmosphere, particularly in a confined space area.

**SPILL OR LEAK AND DISPOSAL PROCEDURES**

- Spill Procedures:** Remove sources of heat or ignition including internal combustion engines and power tools. Remove spill with vacuum trucks or pump and soak up residue with and absorbent. Use approved respirator where occupational exposure limits may be exceeded.
- Waste Disposal:** Dispose through a licensed waste disposal company. Follow federal, state and local regulation.

**SPECIAL PRECAUTIONS AND COMMENTS**

- Storage Requirements:** Store in tightly closed containers in an dry cool place, away from incompatible materials or sources of heat, ignition or strong oxidizers. Ground and bond all transfer and storage equipment. Empty containers may contain residue (liquid and/or vapor) and can be dangerous. Do not pressurize, cut, puncture, incinerate, weld, braze, solder, drill, grind or expose such containers to heat, flame, sparks or other sources of ignition.
